

Bachelor of Business Administration Digital Marketing

The Digital Marketing specialisation provides an in-depth understanding of modern marketing for businesses and is well suited for those who are interested in marketing and creative communication.

This course introduces students to the fundamental skills of digital marketing and develops their knowledge in both product and services marketing. It helps students understand the importance of digital marketing in the twenty-first century and also provides opportunity to apply practical skills. You will learn about each digital channel and the proven strategies associated with these channels.

From identifying critical customer groups, to evaluating the fundamentals of effective Search Engine Optimisation and Search Engine Marketing (SEO and SEM) strategies, to analysing social media marketing campaigns, you will have the opportunity to plan and implement an online marketing campaign (Google Adwords) and learn how data analytics (from Facebook to Google Analytics) can be used to guide marketing decisions.

Dual Specialisation Options

You also have the opportunity to do a dual specialisation in this program. You can combine the Digital Marketing specialisation with any one of the other BBA specialisations like Human Resource Management, Tourism and Hospitality, or Small Business Start-Ups. Graduating with two specialisations can enhance your skills, employability, and your success by widening your career prospects.

ABOUT CURTIN UNIVERSITY
