

Curtin University

Dubai

Bachelor of Science

Psychological Science

Psychology encompasses all aspects of human behaviour, using tested theoretical frameworks to examine, explain, and predict what we do as individuals and in groups.

This program emphasises the application of knowledge to problems arising in professional practice and graduates are equipped to move into the workforce as provisionally registered psychologists after completion of further studies.

It also provides an understanding of the theoretical framework within which various approaches and techniques have been developed. Experimental design relevant to applied research is an important part of the course.

CAREER OPPORTUNITIES

Following graduation, you can pursue a career in one or more of the following positions:

- Human Resources Officer / Manager
- Market Researcher
- Psychologist (after further studies / training)
- Public / Industrial Relations Officer
- Recruitment Consultant
- Project Manager
- Life Coach
- Guidance / Career Counsellor

- Change Manager
- Organisational Development Consultant
- Management roles in many industries
