International Business

Multinational businesses with production or operations in more than one country need talented and culturally sensitive individuals to look after their interests overseas.

To successfully work in international business, you must have an appreciation of a country's culture and business practices, as well as extensive business knowledge.

This course gives an international focus to your business career. You can learn to analyse business systems in different countries and international markets, navigate your way around international business environments, and develop the personal attributes and competencies you will need to be successful in international business, including working in cross-cultural teams.

Learning is practical and focuses on current issues and cases. You can develop high-level skills in management, problem-solving, planning, organising, and managing change, which can help to prepare you for a career in global business.

Work - Integrated Learning

Curtin University Students have helped solve existing problems within real global organisations such as Renault, Celebrity Fashions, and Ashok Leyland.
